Workshop Content:

- Concept of Paper
- Types of Papers – Research & Conceptual
- Tips for writing a paper
- Tips for Paper Presentation

Learning Outcomes:

Student teachers will be able to

- Explain the concept of Paper
- Write a research and conceptual paper
- Write and submit a paper in conferences
- Effectively present a paper in conferences

Activity:

We took the initiative to guide our B.Ed. students through the process of research paper writing, a fundamental skill for their academic and professional growth. Recognizing the importance of honing this skill, we designed a comprehensive workshop that covered various aspects of research paper creation.

Starting with the essentials of selecting a relevant topic and formulating clear research objectives, the resource person guided them through the art of gathering credible sources, critically analyzing information, and organizing their findings effectively.

Emphasizing the significance of proper citation and avoiding plagiarism, he ensured that they not only developed their research prowess but also understood the ethical dimensions of academic writing.

Through individualized guidance and interactive sessions, he aimed to instill in them the confidence to articulate their ideas coherently and contribute meaningfully to their field of study.

The resource person first described the nature of conference. He also explained briefly about the concept of research. The concept and application Research paper was elaborated and some samples are shown. Then discussion was carried out. In the second phase of the workshop the resource person discussed regarding how to present a paper in a conference effectively. In the last session, participants discussed about various titles of research papers.
