2.2 social structure and
social stratification its
impact on educational
process

suggestions for proper socialization of the students

- o Children may be taken from time to time to public place like museum quotes place of historical importance etc.
- o people engage in different economic activities or locations may be invited to school for giving a faithful description of what they do and how useful their work is the nation. This will enable the children to be e acquainted with those around them in the society. This will also develop vocational socialization of child or student.

- o Work experience should be introduced in schools. This will enable the children to have first-hand experiences of the the activities pursued in farms and factories.
- o Student should be e acquainted with the social events like the celebration of the birthdays of leaders.
- o Student should be told about the socially accepted institutions in their society.
- o The introduction of common school dresses common lunch etc in the schools and colleges will prevent children of poor and lower middle classes from humility due to the the inflated ego of the children of the welt to do families.
- o The teachers and parents should respect the personality of student.
- o The mechanism of price and blame, reward and punishment should be carefully used to socialize the student.
- o The teacher should demonstrate democratic outlook.
- o Exhibition on 'know our country' may be organised from time to time
