Best Practice: Educational Research Forum Lecture Series

1. Title of the Practice: Educational Research Forum Lecture Series

2. Objectives of the Practice

The Educational Research Forum Lecture Series at Tilak College of Education is designed with the following key objectives:

- **Awareness of Thinkers' Contributions:** To organize online lectures that inform students about the contributions of prominent thinkers in the field of education, fostering a deeper understanding of their influence on modern educational practices.
- **Promotion of Research in Education:** To provide online lectures aimed at educating research scholars, M.Ed. students, and B.Ed. students about the fundamentals and advancements in educational research, thereby promoting a research-oriented mindset.
- **Current Trends in Educational Research:** To keep students informed about the latest trends in educational research, ensuring that they are up-to-date with contemporary developments in the field.
- **Education on Research Techniques and Methods:** To equip students with knowledge about various research techniques and methods specific to educational research, enhancing their research skills and competencies.
- **Awareness of Current Educational Trends:** To disseminate information about current educational trends to students, teachers, scholars, and teacher educators through a series of online lectures, encouraging a broader understanding and engagement with the evolving educational landscape.

3. The Context

The Educational Research Forum Lecture Series was conceptualized to address the growing need for a learner-centric approach in education, which emphasizes nurturing creativity, independent thinking, and problem-solving skills. Recognizing the importance of research methodologies and the development of research aptitude among students and scholars, the series invites experts and eminent scholars from various fields to deliver lectures that highlight these critical aspects. The initiative focuses on creating a platform where students, teachers, and scholars can engage with these ideas, fostering a culture of intellectual growth and research excellence.

4. The Practice

This lecture series has been implemented as an online platform to reach a wider audience, including students and educators who may not be able to attend in-person events. Each session features a speaker who is an expert in their field, presenting on topics that align with the objectives of the series. The lectures are structured to be interactive, with dedicated Q&A sessions that allow participants to engage directly with the speaker. This interaction not only enhances the learning experience but also encourages critical thinking and the exchange of ideas among participants.

The series covers a wide range of topics, from the contributions of historical educational thinkers to the latest trends in educational research. It also includes practical sessions on research techniques and methods, making it a comprehensive resource for anyone involved in educational research.

5. Evidence of Success

The success of the Educational Research Forum Lecture Series is evidenced by the high level of participation from students, scholars, and educators. The interactive nature of the sessions has led to a significant exchange of ideas, with participants expressing a deeper understanding of the topics covered. Feedback from attendees has been overwhelmingly positive, with many highlighting the value of the series in enhancing their knowledge and research skills. The series has also been recognized as a valuable platform for fostering a research-oriented culture within the institution.

6. Problems Encountered and Resources Required

One of the challenges encountered in the implementation of this practice was ensuring consistent participation across all sessions. To address this, the college has employed strategies such as offering certificates of participation and providing recorded sessions for those unable to attend live. Additionally, there was a need for technical resources to facilitate the online format, including reliable internet access and webinar platforms. These resources were successfully acquired and utilized, ensuring the smooth execution of the series.

The Educational Research Forum Lecture Series at Tilak College of Education serves as a vital platform for intellectual discourse and the exchange of ideas in the field of education. By bringing together experts, scholars, and students in a collaborative online environment, the series promotes a deeper understanding of educational research and current trends. The interactive nature of the lectures enriches the learning experience, making this initiative an exemplary best practice in the realm of educational research and knowledge dissemination.
