Research Paper Writing & Presentation Workshop

B.Ed,2022-23

Date : 28.12.2022 Time - 12.45pm -1:30pm

Venue - Classroom No.12

Resource Person: Dr. Suresh G. Isave

Participants: F.Y.B.Ed. & S.Y.B.Ed. 2022-23

Workshop Content:

- Concept of Paper
- Types of Papers - Research & Conceptual
- Tips for writing a paper
- Tips for Paper Presentation

Learning Outcomes:

Student teachers will be able to

- Explain the concept of Paper
- Write a research and conceptual paper
- Write and submit a paper in conferences
- Effectively present a paper in conferences

Activity:

We took the initiative to guide our B.Ed. students through the process of research paper writing, a fundamental skill for their academic and professional growth. Recognizing the importance of honing this skill, we designed a comprehensive workshop that covered various aspects of research paper creation.

Starting with the essentials of selecting a relevant topic and formulating clear research objectives, the resource person guided them through the art of gathering credible sources, analyzing information, and organizing their findings.

Emphasizing the significance of proper citation and avoiding plagiarism, he ensured that they not only developed their research prowess but also understood the ethical dimensions of academic writing.

Through individualized guidance and interactive sessions, he aimed to instill in them the confidence to articulate their ideas coherently and contribute meaningfully to their field of study.

The resource person first described the nature of conference. He also explained briefly about the concept of research. The concept and application Research paper was elaborated and some samples are shown. Then discussion was carried out. In the second phase of the workshop the resource person discussed regarding how to present a paper in a conference effectively. In the last session, participants discussed about various titles of research papers.

Report on TCE Educational Research Forum Google Classroom 2023

During the academic year 2022-2023, the IQAC has taken an initiative to excel the activities of Educational Research Forum to create an environment of Educational Research for B.Ed. student-teachers, M.Ed. student-teachers, Ph.D. Scholars, guides and experts, thus decided to create a Whatsapp group and Google Classroom named TCE Research Forum.

The Group and Google Classroom were created on 14th January 2022 the links of these were shared on various Whatsapp groups, there are 135 participants on whatsapp group and 73 on the Google Classroom. Especially whatsapp group is for communication, conversation and raising the queries, links related to Educational Research, etc. while Google Classroom is created for sharing the bulky files, docs, PDFs, YouTube videos links, Podcasts links, and Class work also. One benefit of Classroom is creation of repository, the participants who joined later can see the posts shared during the academic year as well as retrieve many times. In whatsapp memory gets filled and so people sets the expiry to the previous messages.

From 22 Jan 23 to 22 July 23 we have shared more than 148 posts on the Google Classroom and many more on the Whatsapp also.

The Educational Research forum succeeded in raising awareness about the educational research and created conducive environment related to research.

Webinar on

**IMPLEMENTATION OF NATIONAL EDUCATION POLICY 2020
 FOR TEACHERS – CHALLENGES AND THEIR SOLUTIONS**

Date : 13th March.2021 Day : Saturday Time:11.00am to 3.00pm

The webinar started at 11.00 am with the welcome speech by Dr. Radhika Inamdar, Secretary S.P. Mandali and Principal of Tilak college of education. This was followed by the prayer 'Saraswati Vandana' 'सा कुन्देदु तुषार हार धवला..".

Introduction of keynote speaker, Mr. Sudhir Gaade (Professor, Garware College, Joint Secretary, MES, Pune) and Chief Guest Dr. Vamanrao Gogate (Retd. Principal, College of Education-Dhule, Former General Secretary, Board of Education of India) was given by Mr. Jayashree Edgaonkar, H.M., V. D. Vaidya Prashala.

Mr. Sudhir Gaade addressed with his inspiring words. He stated that NEP is a vital process in the field of education. India is a country of Great ideas but lagging in implementation. Therefore, fulfilment of expectations of NEP is major responsibility of Teachers. The changing role of teacher is becoming more important as being facilitator. He has also mentioned about use of Digital Technology became successful due to Corona pandemic.

Today's Chief Guest Dr. Vamanrao Gogate influenced the gathering in his revolutionary words. He mentioned about M.Jliar, Radhakrishnan, Kothari Aayog and J.P. Naik's contribution. Kothari Aayog stated in 1967-68 was revolutionary but was left unimplemented. He has also mentioned about proper implementation of NEP which will include vocational courses and multi-entry, multi-exit system which will definitely fulfil the dream of 'Atmanirbhar Bharat' in 21st century.

He has also focussed on Role of Sanskrit in National Research Foundation and inclusion of Traditional Education System. He has concluded his speech by stating that true objective of NEP is Education of Society and Nation which will help to bring concept of 'Atmanirbhar Bharat' in materialistic world and in spiritual context a 'Vishwa-Guru Bharat'.

Thereafter, Dr. Radhika Inamdar, Secretary, S. P. Mandali expressed her views. In her flawless speech and commanding words, she stated that NEP-2020 is real brain storming policy as it is being discussed at all levels including students, parents, teachers, teacher educators, managing bodies and society. These discussions will definitely lead to radical changes in education system in near future.

She has also mentioned about Journey of NEP 2020 from Local to Global vision. Transforming the state from 'INDIA' to 'BHARAT' is necessary self-realisation will be the outcome of NEP-2020. She also stressed upon our Indian culture, importance of Sanskrit, Vedas and Upanishadas, Ayurveda and Yoga which is indivisible part of India. She concluded her speech by stating importance of concept refinement of Parents, students and training of Teachers to make implementation of NEP 2020 a grand success.

In the second session, topic wise discussions were conducted. Teachers were divided in seven groups for this discussion session.

In these discussions challenges in implementation and solutions were mainly discussed.

In the third session, presentations on the discussed topics were done by the group leaders on seven different topics. (Synopsis of presentations is enclosed separately.)

This session was concluded with the speech by Ms. Swati Bhave, Vice President, Bhartiya Shikshan Mandal. She also mentioned about inclusion of vocational education stated by Kothari Commission (1967-68, which remained unimplemented. She stated that Teachers are certainly the pioneers for the implementation of revolutionary policy NEP-2020.

She also emphasised that support of society is very much essential to make this happen. She mentioned that, "The key of success is in teachers' hands". Therefore, they must play a multi-dimensional role of mother, father and saint with respect to the students. For teachers this realisation should come from within which will help in managing the challenges in better implementation of NEP-2020."

Ms. Jayashree Edgaonkar thanked Ms. Swati Bhave for her valuable guidance.

Vote of thanks was proposed by Kulkarni, HM., S.P.M. English School, Primary Section, Pune.

Presentation - Group 1

Topic: New Curricular and Pedagogical structure (5+3+3=4) for the School Education

Group In-charge: Ms. Amruta Apte, S.P.M. E.S. School, Secondary, Pune.

Stage 1 (5 years) – Foundation stage : Age 3 years to 8 years

- * It includes Anganwadi or preschool and class 1 and 2
- * Emphasizes on good behaviour, cleanliness and hygiene, team work and co-operation in learning.

Problems discussed – 1) Properly trained teachers and material is required for teaching which may not be available in rural areas or also in urban areas. 2) No exams till class two. So, no clear idea of child's understanding and knowledge.

Solution discussed – 1) Education can be started with the material available and with the help of experienced teachers till new teachers are trained and material is made available. Somethings like value education, cleanliness, co-operation, team work can be taught at home with the help of parents grandparents who tell stories, children learn through activities at home and through family members' behaviour with each other. Parents need to be given proper orientation regarding new policy and its needs.

Teachers, parents, school some social workers, govt, NGO'S can work hand in hand for successful implementation of this policy.

2) Some informal system of evaluation should be there till class2 to assess students for their knowledge. Govt. can help all schools by giving common evaluation pattern. Children should learn in free and play –way method but should be monitored.

Stage 2: (3 years) Preparatory stage – Age : 8 years to 11 years

- * It includes class 3, 4 and 5.
- * Emphasizes on reading, speaking, physical education, art, science, maths etc
- * Exam starts from class Three onwards
- * Activity based teaching learning.

Problem discussed – In new Policy evaluation is 360° evaluation which includes peer evaluation, self-evaluation and evaluation by school teacher. So proper format and trained teachers required. Also, peer assessment and self-assessment should be appropriate. Should not be biased.

Solution discussed – Again trained staff is required, students should be given proper training for peer and self-assessment. Some technology apps software can be used for assessments. Exam starts at third grade so proper knowledge of child's prior knowledge should be there. For that child's report card in foundation stage will play important role. It should have all areas assessment properly.

Stage 3 : (3 years) Middle Stage - Age :11 years to 14 years

- * It includes class 6,7 and 8.
- * Emphasizes on Science, maths, arts, social science, humanities and abstract knowledge starts.
- * Vocational and computer training is introduced.

Problem discussed- Vocational training may not be appropriate as per need and interest of students and need of that area. Also, techno savvy staff required for computer training and also infrastructure and all facilities regarding computer training.

Solution discussed – Vocational training can be selected as per area locally available occupations. Ex – agricultural training, animal husbandry, vegetable vending, growing etc can be taught in rural area. In urban area training in computers, carpentry, cooking, machine maintenance etc can be taught.

- * If chosen properly and experts are arranged and field visits are also arranged then it can be successful.

Stage 4 : (4years) Secondary Stage – Age: 14 to 18 years

- *It includes class 9, 10, 11 and 12
- * Emphasizes on multidisciplinary study with greater depth, critical thinking, etc.

Problems discussed – While choosing different subjects and streams students can be confused or misguided also because of family pressure peer pressure or lack of confidence. They may not be able to choose proper stream and combination of different subjects. Also, multiple entry and exit can result in wastage of time.

Solution discussed- Students can be given proper guidance through counselling. School counsellors or even counsellors in communities can help students. School should take help of counsellors and proper aptitude tests also can be conducted. Students can be given proper guidance for

choosing subjects. School, teachers, counsellors, parents should work hand in hand. Parents should be given proper orientation about career and different options available.

Conclusion - New National Education Policy-2020 has many positive aspects and can be extremely useful for preparing young citizens of India. New structure and pattern of schooling and curriculum (5+3+3+4) is definitely useful if accepted and implemented positively.

Presentation - Group 2

Topic: Flexible curriculum - No hard separation of Curricular, Co-Curricular or extra-Curricular areas.

Group In-charge: Ms. Manasi Bhate, S.P.M. Eng. School-Secondary, Pune

The points discussed are as follows:

1. For bringing flexibility in curriculum student-teacher ratio should be maintained as 30:1 or 25:1. Crowded classes can create problems in implementation.
2. Arts like music, dance drama can be very helpful for emotional development of a child, it can be very useful to relieve from stress. Children should pursue any hobby not only for winning the competitions or as future profession but for peace of mind and to come out from stressful situations.
3. Participation of parents in all this process is equally important. Awareness of parents can be done through workshops.
4. Methods like Team teaching should be effectively implemented. e.g., Science+ drawing or maths+ sports, Music + physics can be taught together very effectively. Teamwork of teachers with open mind is essential.
5. School administration should be helpful for such flexibility.
6. Project based learning is very important. Students should do the projects by their own. Separate period can be given for projects.
7. Apart from syllabus other topics also can be given to the projects. e.g., Collection of old coins where we can teach subjects like History (historical period of coins), chemistry (metals used for their preparation) etc.
8. Rigid compartments should be removed between the subjects. Interdisciplinary approach is needed.
9. Teachers orientation/ training is needed for this change in perspective.
10. Music clubs and art clubs can be prepared in schools.

Presentation – Group 3

Topic: Effective Administration and Management of Schools through school complexes/clusters

Group In-charge: Ms. Kavita Chandakka **School: 1. Eng. School, Secondary, Pune**

For the implementation of the new curriculum (5+3+3+4) the present concept of school needs to be modified as **School Cluster or Complex** which will be treated as **integrated semi-autonomous unit**. This will fulfill the requirement of effective administration and management of schools.

Few challenges and solutions:

1} Central Managing Council- School Cluster Committee should be formed comprising of all the heads (Secondary along with all lower grade units and vocational units). This Committee will look after following aspects:

- A) Teachers Appointments** – Hiring and sharing of teachers can be done, work-load of teachers can be divided into different school.
- B) Time table:** Time table management will be done by the Committee with the help of respective school representatives for better co-ordination.
- C) Curriculum :** Proper designing of a broader based curriculum.
- D) Evaluation:** Evaluation method/format to be decided.
- E) Strength :** Number of Divisions, Strength per division to be finalized.
- G) Infrastructure:** Wide spectrum of infrastructure needs to be made available.

2} Teachers' Training: Teacher Training Module (TTM) must be prepared. TTM must be activity based and skill based. These should also include proper teachers training for especially abled students.

3} Parents awareness programme: Sessions for parents need to be conducted to make them aware about the challenges in NEP-2020 implementation.

4} Vocational Curriculum: Small scale with minimum capital and infrastructure courses can be introduced initially.

5} Vocational Laboratory: Vocational laboratory can be set up and students can be involved in monitoring and maintenance. School complex sinking fund can be utilised in case of repairs and maintenance.

6} Students of 6 to 8 standard can read poems, stories, games to pre-primary students being a part of project.

7} To deal with specially abled children from gifted to slow learner teachers should be provided with proper training from special teachers.

Presentation – Group 4

Topic: The Three Language formula – Education in the Mother tongue/local language

Group In-charge: Gloriya Hancock, S.P.M. Public School, Pune

1) Problem: For special children.

Parents admit their students late to school

Basic learning years are wasted.

Identification of words, reading and writing is missed.

Solution: Parents should be counselled; small groups can be made language wide and accordingly the child can learn with the language which he / she is comfortable with it.

2) Problem: Students coming from different linguistic backgrounds. There is a misconception in the parents, that if the child starts his education in English medium, he will be progressive.

Solution: But now there is no language barrier. parents can be counselled.

3) Problem: What if the teacher is not well versed with the language?

Solution: Small groups can be made according to the understanding of the child.

It all depends upon the institutional management.

Children's liking towards the subject will increase. Grasping power will increase.

Where to take admission concept will be closed.

* Dropout rate will be reduced due to language barrier.

* Children will not feel left out.

* Interest in learning will be more

Topic: 100% GROSS ENROLMENT RATIO IN SCHOOL EDUCATION BY 2030 ENSURING UNIVERSAL ACCESS AND RETENTION.

Group In-charge: Sharda Oswal, S.P. Public School, Pune

- * The National Education Policy 2020 aims at universalisation of education from Preschool to Secondary level with 100% Gross Enrolment Ratio (GER) in school education by 2030.
- * Gross Enrolment Ratio is the ratio of the number of enrolments to the total population in that particular age group.
- * Generally, a high GER indicates a high degree of participation.
- * The National Education Policy 2020 will bring 2 crores out of school children back into the main stream through open schooling system.

The reasons for dropping out from School:

1. Engagement in domestic activities for girls and economic activities for boys
2. Child not interested in studies
3. Financial constraints
4. School is far off
5. Unable to cope up with studies.

Ways to improve the Gross Enrolment Ratio:

- * Good quality infrastructure should be provided.
- * Number of schools at all levels of education should be increased. Schools with hostel facility would benefit the girl students to improve GER.
- * Good quality and well-trained teachers to be appointed.
- * Establishment of School Management Committee to take care of the overall development of the school.
- * Non-formal education systems should be engaged for facilitating education for the drop out group of learners.
- * Various opportunities to be provided in order to engage the students and make the teaching-learning process more interesting and cope up with the expected level of learning.

- * A large number of colleges should be opened up in rural areas which will improve accessibility.
- * This will be especially beneficial to girl students who generally do not venture out to long distances.
- * Opening up of colleges near their homes will increase the enrolment in higher education in a big way.
- * Number of scholarships should be increased
- * Spread of higher education institutes especially in rural areas would be an important factor to improve the GER.
- * Functional separate toilets for girls will help in improving the GER.
- * The NEP recommends strengthening of existing schemes and policies which are targeted for such socio-economically disadvantaged groups (example- Schemes for free bicycles for girls or scholarships, Sarva Shiksha Abhiyan, Right to Education Act) to tackle dropouts.
- * It also recommends setting up special education zones in areas with significant proportions of such disadvantaged groups.
- * Vocational courses will help to improve the GER.
- * Schools teaching in regional languages should be promoted
- * Counselling facility to be made available
- * Opening up of weekend schools and evening schools
- * Skill based learning for children who do not have a permanent living place
- * Provision of grains instead of cooked food in Mid-Day Meal Programmes

Presentation - Group 6

Topic: Equitable and Inclusive Education for a Harmonious Society by giving Opportunities to SEDGs (Social and Economically Disadvantaged Groups)

Group In-charge: Ms. Mukta Kelkar, S.P.M., Public School, Pune

The Education system must aim to benefit India's children so that no child loses any opportunity to learn and excel because of circumstances of birth or background.

SEDGs are broadly categorized based on

1. Gender Identities
(particularly female and transgender individuals)
2. Socio-cultural identities
(such as SC, ST, OBCs and minorities)
3. Geographical Identities
(such as students from villages, small towns, and aspirational districts).
4. Disabilities (including learning disabilities) and
5. Socio-economic conditions
(such as migrant communities, low income households, children in vulnerable situations, victims, or children of victims of trafficking, Orphans including child beggars in urban areas, and the urban poor).

Various Policies and Schemes

1. Targeted scholarships
2. Conditional cash transfers
3. Providing bicycles for transport
4. Providing grocery items to parents of children of disadvantaged groups

Methods for effective Participation

1. Providing bicycles
2. Organizing cycling and
3. Walking groups for female students
4. One to one teachers and tutors
5. Peer tutoring
6. Appropriate infrastructure
7. Suitable technological interventions
8. Counsellors and Social Workers

Special Education Zones

- * Certain geographical areas contain significantly larger proportions of SEDGs.
- * Geographical locations identified as Aspirational Districts which require special interventions for promoting educational development.
- * Regions of the country with large populations from educationally disadvantaged SEDGs should be declared Special Education Zones (SEZs).
- * Where all schemes and policies are implemented to the maximum.
- * Policy additionally recognizes the critical role that women play in society.
- * Providing quality education to girls is the best way to increase education levels for these SEDGs.

Boarding facilities

- Free boarding facilities will be built matching the standards of Jawahar Navodaya Vidyalayas-in school locations
- Special arrangements for safety of girls
- Particularly for students from SEI) backgrounds

Things which we teachers have to work on

1. Acceptance by the teacher
2. Acceptance by the students
3. Acceptance by the Parents
4. Bridging the gap between advantaged and disadvantaged children
5. Raising awareness on importance of education and about risks of early dropouts from the education process

Educational Culture

- Such an educational culture will provide the best pathway to help students become empowered individuals who, in turn will enable society to transform into one that is responsible towards its most vulnerable citizens.
- Equal opportunities
- Full participation
- Protection of rights

Presentation - Group 7

Topic: To take continuous professional training for teachers' professional development driven by self-motivation

Group In-charge: Ms. Aditi Sane, S.P.M. Eng. School, Pre-Primary, Pune

When a teacher driven by self-motivation tries to acquire new skills with passion then certainly, they will be able to face the challenges in NEP-2020 implementation.

Few challenges:

- 1. Time management for training sessions** – Turn by turn subject wise training can be given. Assistant teachers can be given substitution in the classes (Primary). Even parents help can also be taken.
- 2. Online Training-** Problems faced regarding Online Training due to connectivity/power failure. Training modules should be made available on portal so that teachers can access them as per their convenience.
- 3. Need for useful training-** Training should be more relevant which will cater to the needs of the teachers in the changing scenario. Training should be arranged in the School itself.
- 4. Structured training-** To face the challenges and adopt skills for online teaching techniques teachers should be provided with structure-based training in the related areas.
- 5. Specially abled student teaching-** To deal with specially abled children from gifted to slow learner teachers should be provided with proper training from special teachers.

In short continuous training will make teachers more competent and confident to play the vital role in this dynamic conditions.

 Thursday, 14th May 2020
REPORT

A Webinar on 'Relevant Areas of Research in Education' was organized by Research Department of Tilak College of Education on 14th May 2020 for the research guides in Education from seven research centers of Savitribai Phule Pune University, Pune.

The major objective of the webinar was to discuss and finalize about relevant areas of research in Education. Prof. Sanjeev Sonawane, Dean, Faculty of Interdisciplinary Studies, Savitribai Phule Pune University, Pune was the key speaker of the webinar. In the inaugural Principal Dr. Radhika Inamdar welcomed the key speaker and all the participant and also introduced the theme of the webinar. Dr. Vijay Dhamane introduced the background of the Webinar..

In the first session of the webinar Prof. Sonawane Sir focused on the philosophical background of the relevancy of the research area. Sir illustrated the need of it with appropriate examples. He also mentioned the need in the technological era. He tried to set up the mindsets of the guides towards the relevancy of the study. He gave the insight how to think about 'Relevant Areas of Research in Education'.

The second session was also conducted by Prof. Sanjeev Sonawane Sir. In this, he explained the actual examples of relevancy of the research study. He referred the appropriate examples in Education. He also focused on the methodology according to the area or the topic of the research.

Afternoon session was reserved for question answer and the discussion. Questions were asked from seven research centers before the webinar was started. In this session, center wise questions were asked to Prof. Sonawane Sir. He answered all the questions with appropriate examples related to relevancy and also conducted discussion. Total 21 questions from seven centers were planned to ask. This session was actual output of the webinar. The central theme of the webinar was very clean and clear to everybody. It was reflected through discussion. It really enlightened every guide on this important topic which will help to everybody to enhance the quality of the research in future. Total 68 guides benefited by this webinar.

The session was concluded with feedback from some participant and vote of thanks by the coordinator.

HOW TO PREPARE RESEARCH PROPOSAL
Saturday, 10th Feb 2020
A REPORT

Research Department of Tilak College of Education, Pune had organized a workshop on 'How To Prepare Research Proposal' on 10th Feb 2020 for newly admitted students of M.Phil. and Ph. D. & for their guides. The main objectives of workshop were to orient the students about the proposal writing and to decide uniform format of the proposal.

The workshop was conducted in three sessions. In the morning session Dr. Dipak Chavan conducted orientation about proposal writing. He illustrated how to write each step of the proposal with appropriate examples. He also conducted activity of proposal writing at individual level. At the end, he conducted question answer session based on the proposal writing. After discussion, students were satisfied.

In the second session Dr. Madhuri Isave conducted a session on 'Areas of Research'. In this, she oriented the student about how to select the areas of research for the study. She guided the students with appropriate examples. She also demonstrated about use of technology for searching the area for research study. The session was interactive and raised the curiosity of the research scholars.

After the orientation, demonstration and discussion we conducted the last session of actual proposal writing under the guidance of the Guides. The whole group was divided into four groups as per the guides allotted. They discussed for an hour on the proposal writing. Finally some sample proposals were presented in short within the group. All the students were very eager to present the same. It was an indicator of the succeed of the workshop. Principal Dr. Radhika Inamdar chaired the workshop and Co-ordinator of research deprnment Dr. Vijay Dhamane coordinated it. Total twenty Ph.D. students and seven guides participated in this workshop.
