The National Education Policy (NEP) is now on the threshold of implementation. NEP has been prepared keeping in mind the demands of the 21st century society. An earnest effort has begun to reinforce and incorporate Indian culture, with a focus on providing student centric education. The major structural changes envisioned by NEP in the higher education are the Multidisciplinary approach, the Multiple Entry Multiple Exit (MEME) facilities, provisions to retain and transfer credits and reforms in evaluation. These changes will measure the competitive acumen of the learners in a just and qualitative manner. Therefore, identifying the implementation strategies, approaches, and a concrete roadmap for NEP-2020 is the need of the hour. Deliberations by the academicians/experts on these aspects will help us pave way for effective implementation of the policy. With an intention to facilitate this, the Centre for Educational Development Administration (CEDA), S.P. College and Tilak College of Education, Pune have organised a one- day workshop on three important aspects:

- ξ **Implementing Multidisciplinary Education,**
- ξ **The concept and implementation of Academic Bank Of Credits**
- ξ **Examination Reforms.**
